

MRO & AVIATION

Products and manufacturing services

Who we are, what we do

over **35**
years of experience

130+
employees

4
localizations

4000 sqm
production area

Semicon Sp. z o.o. is a family-owned, innovative company operating in electronics, photonics, aerospace, defence and other high-tech industries.

Semicon has been operating on the electronics market for more than three decades. Our team consists of 130 professionals, working in four locations, with a total area of about 5000 square meters, offers you a number of services and a rich portfolio of products from globally renowned manufacturers.

We specialize in providing turnkey electronics solutions to clients in all business and industrial sectors. With an extensive range, including materials and components for electronics, services for electronics and testing products, we can turn your ideas and requirements into highly advanced electronics solutions that are custom-made to your specifications.

As AS9120 rev B certified distributor we are supplying materials and equipment needed for MRO applications. Together with our partners we are able to supply all needed materials used in production or service of the civil aircrafts, helicopters and military aircrafts as well.

With the appropriate handling and warehouse we capability to handle hazardous materials.

Our converting department can prepare tapes and foils on the requested dimensions.

Due to work according to ISO & AS norms all our products are supplied with highest quality.

Our storage is equipped with temperature & humid control and freezers to keep materials in proper conditions. Our employees are trained to work with materials according to specifications.

Certificates

Semicon has implemented and maintain the Integrated Quality Management System, confirmed by the following certificates:

ISO 9001:2015

Quality Management System

AS 9120:2018

Quality Management System
Requirements for Aviation, Space
and Defence Distributors

ISO 13485:2016

Quality Assurance
of Medical Devices

ISO 14001:2015

Environmental
Management System

AQAP 2110:2016

Quality Assurance
of Defence Products

Other Semicon business areas

Distribution

- Electronic and electromechanical components
- Materials for electronics and other industrial branches
- Certified materials for aviation, defense
- Measuring accessories, test probes
- Tools for the electronics industry

Laser cutting of SMT stencils

- Stencils on aluminium frames, Vector Guard and self-tension systems
- Long stencils for LEDs
- Micro stencils for reballing
- Step stencils (variable thickness) – milling, micro welding
- Nano coating stencils
- Precise laser-cut mechanical components

Optoelectronic equipment manufacturing

- Laser modules: line, cross, spot
- Laser holders & positioners

Tapes converting

- Rolls, tapes and velcros slitting, die-cut, kiss-cut, laminating

In-Circuit test fixtures (ICT) and functional testers (FCT)

- Designing and building adapters with testing probes
- Test systems dedicated for customer projects

Wire harness production

- Short series
- Wires and cables processing from #36 to #10
- Customization & design
- Box build

Member of

- Aviation Valley Poland
- Polish Technological Platform on Photonics
- National Chamber of Commerce for Electronics and Telecommunications
- Polish Chamber of Commerce for Electronics and Telecommunications Microelectronics, Electronics & Photonics Cluster
- Polish Society for Photovoltaics

Aviation Valley Poland

Polish Space Industry Association

Tapes

Aerospace | Industrial | Defence

TAPE CONVERTING LINE

Cutting the roll of tapes

- Maximum logroll length: 1700 mm
- Minimum cut length: 6 mm
- Cutting accuracy: 0.1 mm
- Maximum logroll diameter: 430 mm

Cutting

- Working area 1330 mm x 830 mm
- Cutting difficult materials
- Cutting of adhesive films
- Cutting foams and other materials
- Filter extraction

Punch of matrix

- Material thickness
- Working area 300 mm x 300 mm

Lamination

- Working width max 1600 mm

- Masking
- Protective
- Carpet
- Floor sealing
- Damping
- Antislip
- Aluminium
- Double side
- Cargo liner
- Corossion protective
- Adhesive Transfer
- Applicators & tools

Chemicals

Aerospace | Defence | MRO | Industrial

APPLICATION

Anti-corrosion products
Protection in the form of dry, wet and wax coatings

Cleaners/degreasers
Fast and slow evaporating solvents, aqueous (alkaline and acidic)

Anti-seize greases/paste
Available in aerosols, cartridges, canisters, cans

Adhesives/Sealants
Epoxies, polyurethanes, silicones

- Sealants
- Penetrants
- Greases
- Adhesives
- Gaskets
- Silicones
- Degreasers
- Cleaning agents
- Surface treatment
- Coolants
- Abrasives
- Primers
- Corrosion inhibitors
- Applicators & tools

I Special materials

Composite materials

- adhesives
- prepregs
- dry fabric

Honey-comb

- core fillers
- edge fillers

Protective tapes against abrasion and erosion

- radar boots
- belly
- leading edge

I Testers

Test equipment

- MK test
- DeMarchiori / DMA
- Cami Research

I Special tools

Crimping and assembly tools for harnesses

- DMC
- Astro
- ABB / T&B

Tools & tool-box

- FOD protection
- pneumatic drills
- hand tool sets
- drawer tool trolleys

| Applicators & mixers

Sealants and epoxy applicators

- pneumatic
- manual

Sealants mixers

Dispensing needles

Dispensing nozzles

| Painting

Surface preparation

- abrasive discs

Sealant removers

Sanding screens

Spray guns

| Health & safety

Personal Protective equipments:

- half masks
- full-face masks
- filters
- gloves
- eye protection
- hearing protection
- fall protection
